### MENTOR-MENTEE MEETINGS

#### **1st Meeting- 16th December 2024**

In the first mentor-mentee meeting, I, Jyoti Sharma (AP-Economics) began by introducing myself as their mentor and explaining what the mentor-mentee system is all about. I told the students that this programme is meant to support them throughout their academic journey and provide a safe, comfortable space where they can talk openly. We discussed how they are free to share anything with me- whether it is a personal issue, academic difficulty, professional concern, stress, anxiety, or any challenge they may be facing. I assured them that my role as a mentor is to guide them, listen to their problems without judgement, and help them find the right direction whenever needed.

I also explained that the meetings will be held regularly so that we can track their progress and resolve issues early. Students were encouraged to speak up whenever they needed help, whether related to studies, future career plans, family situations, confidence issues, or emotional well-being. I emphasized that the purpose of mentoring is not only academic improvement but also overall growth, mental well-being, and personal development.

The session ended with students briefly introducing themselves and sharing what they expect from the mentoring process.

The list of students who attended the meeting, along with their signatures, is attached.
